

Taiwan Good Design Award

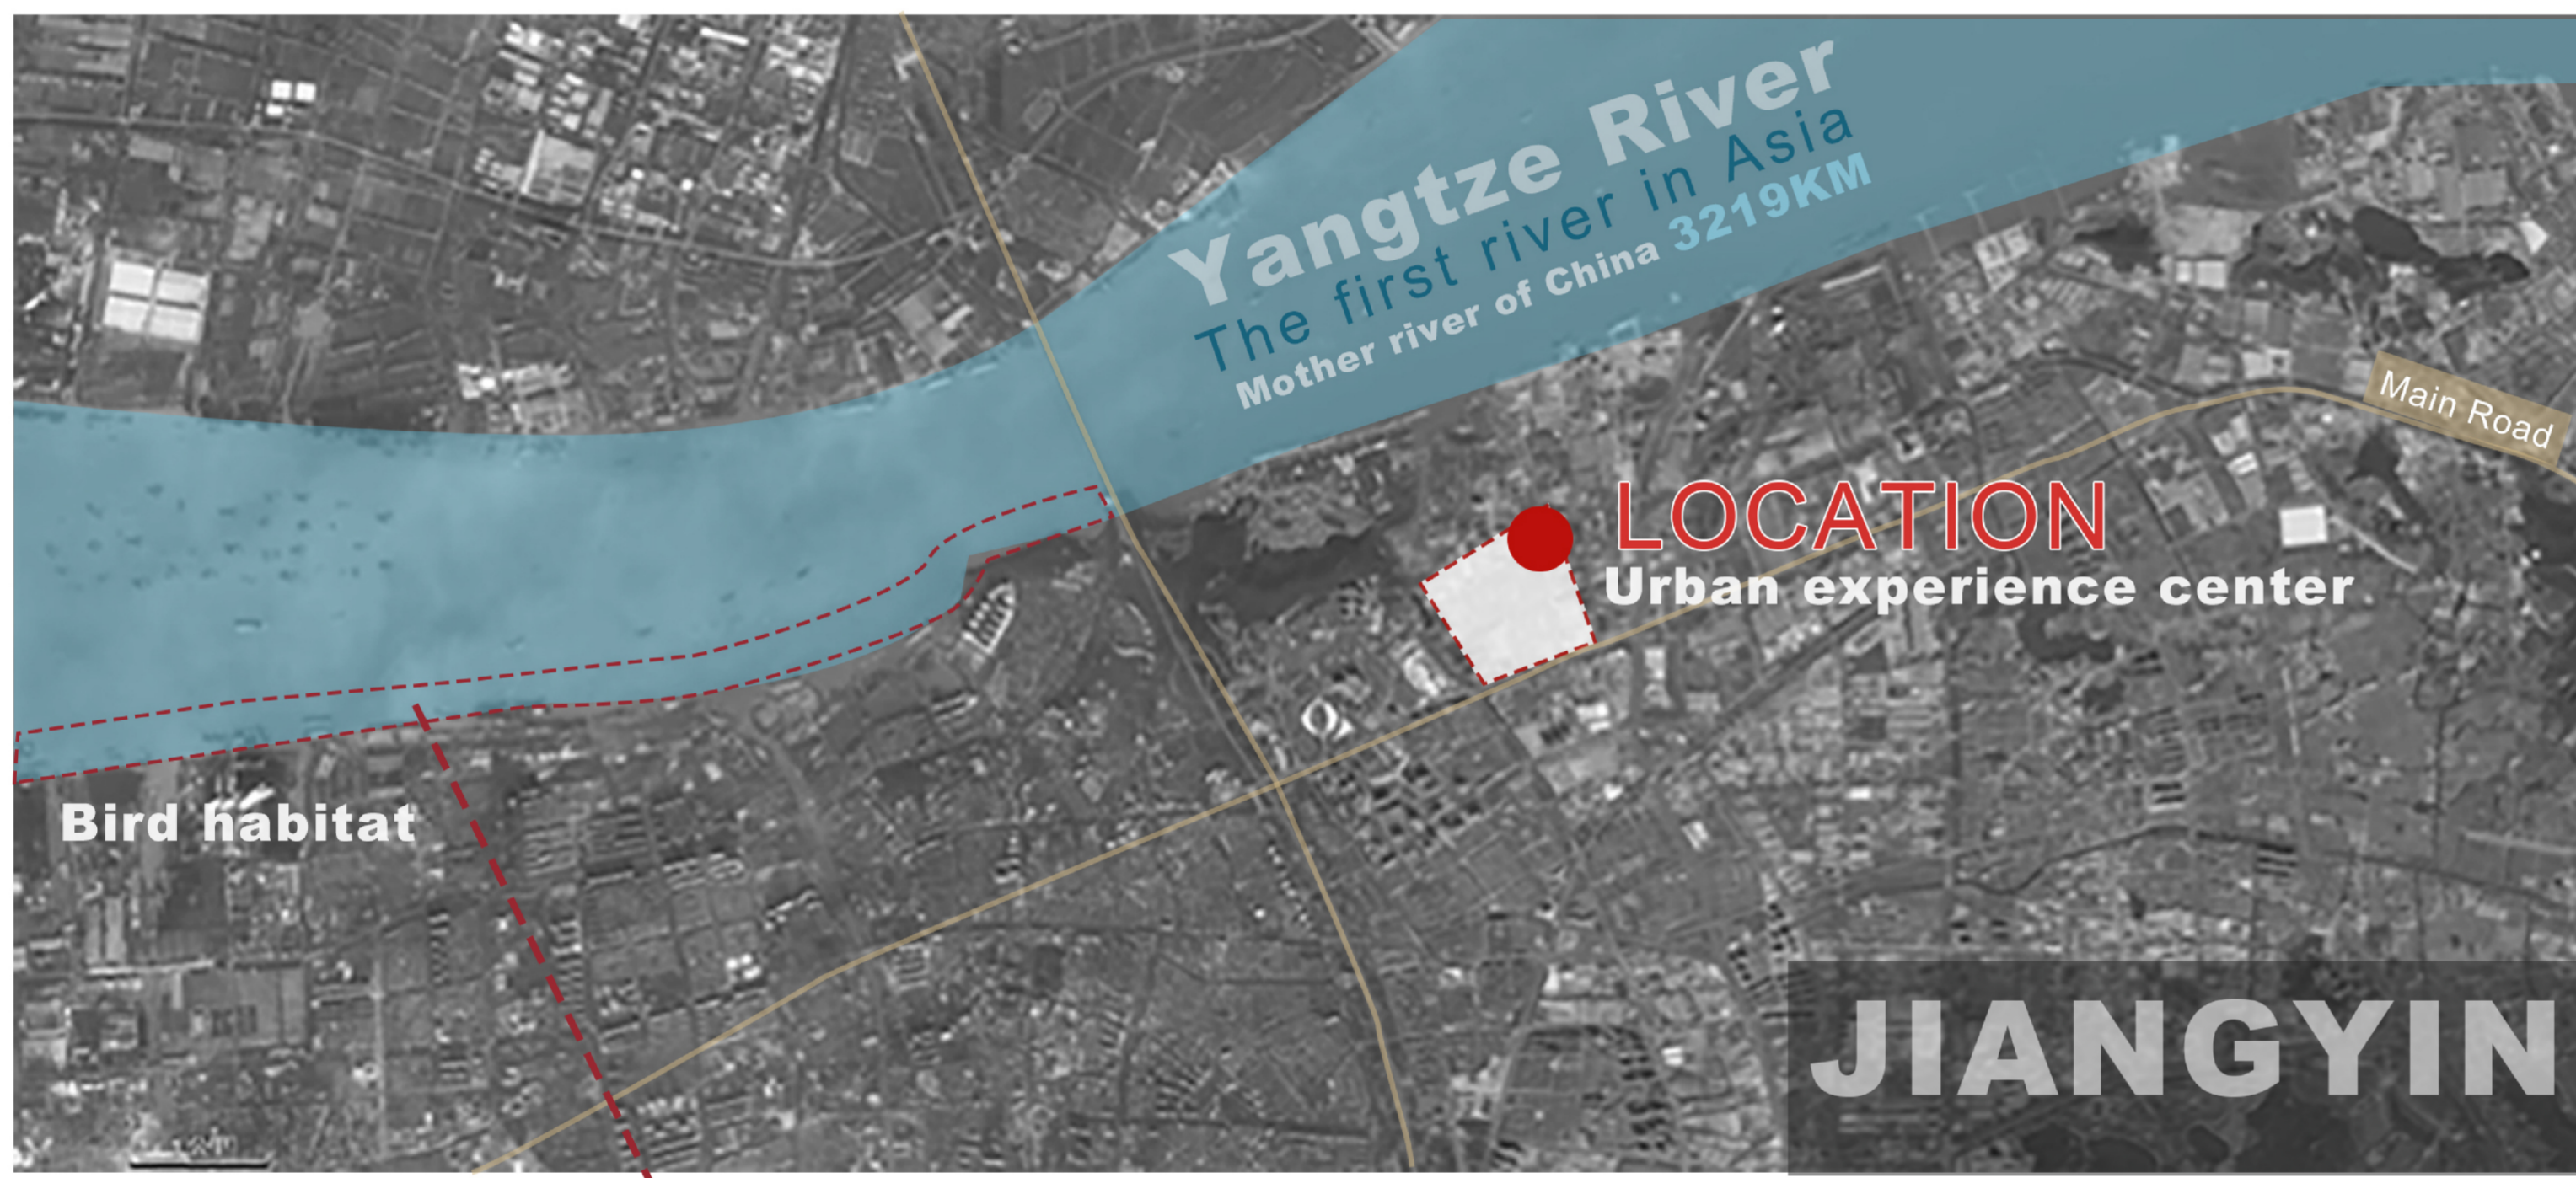

FLYING

Jiangyin China

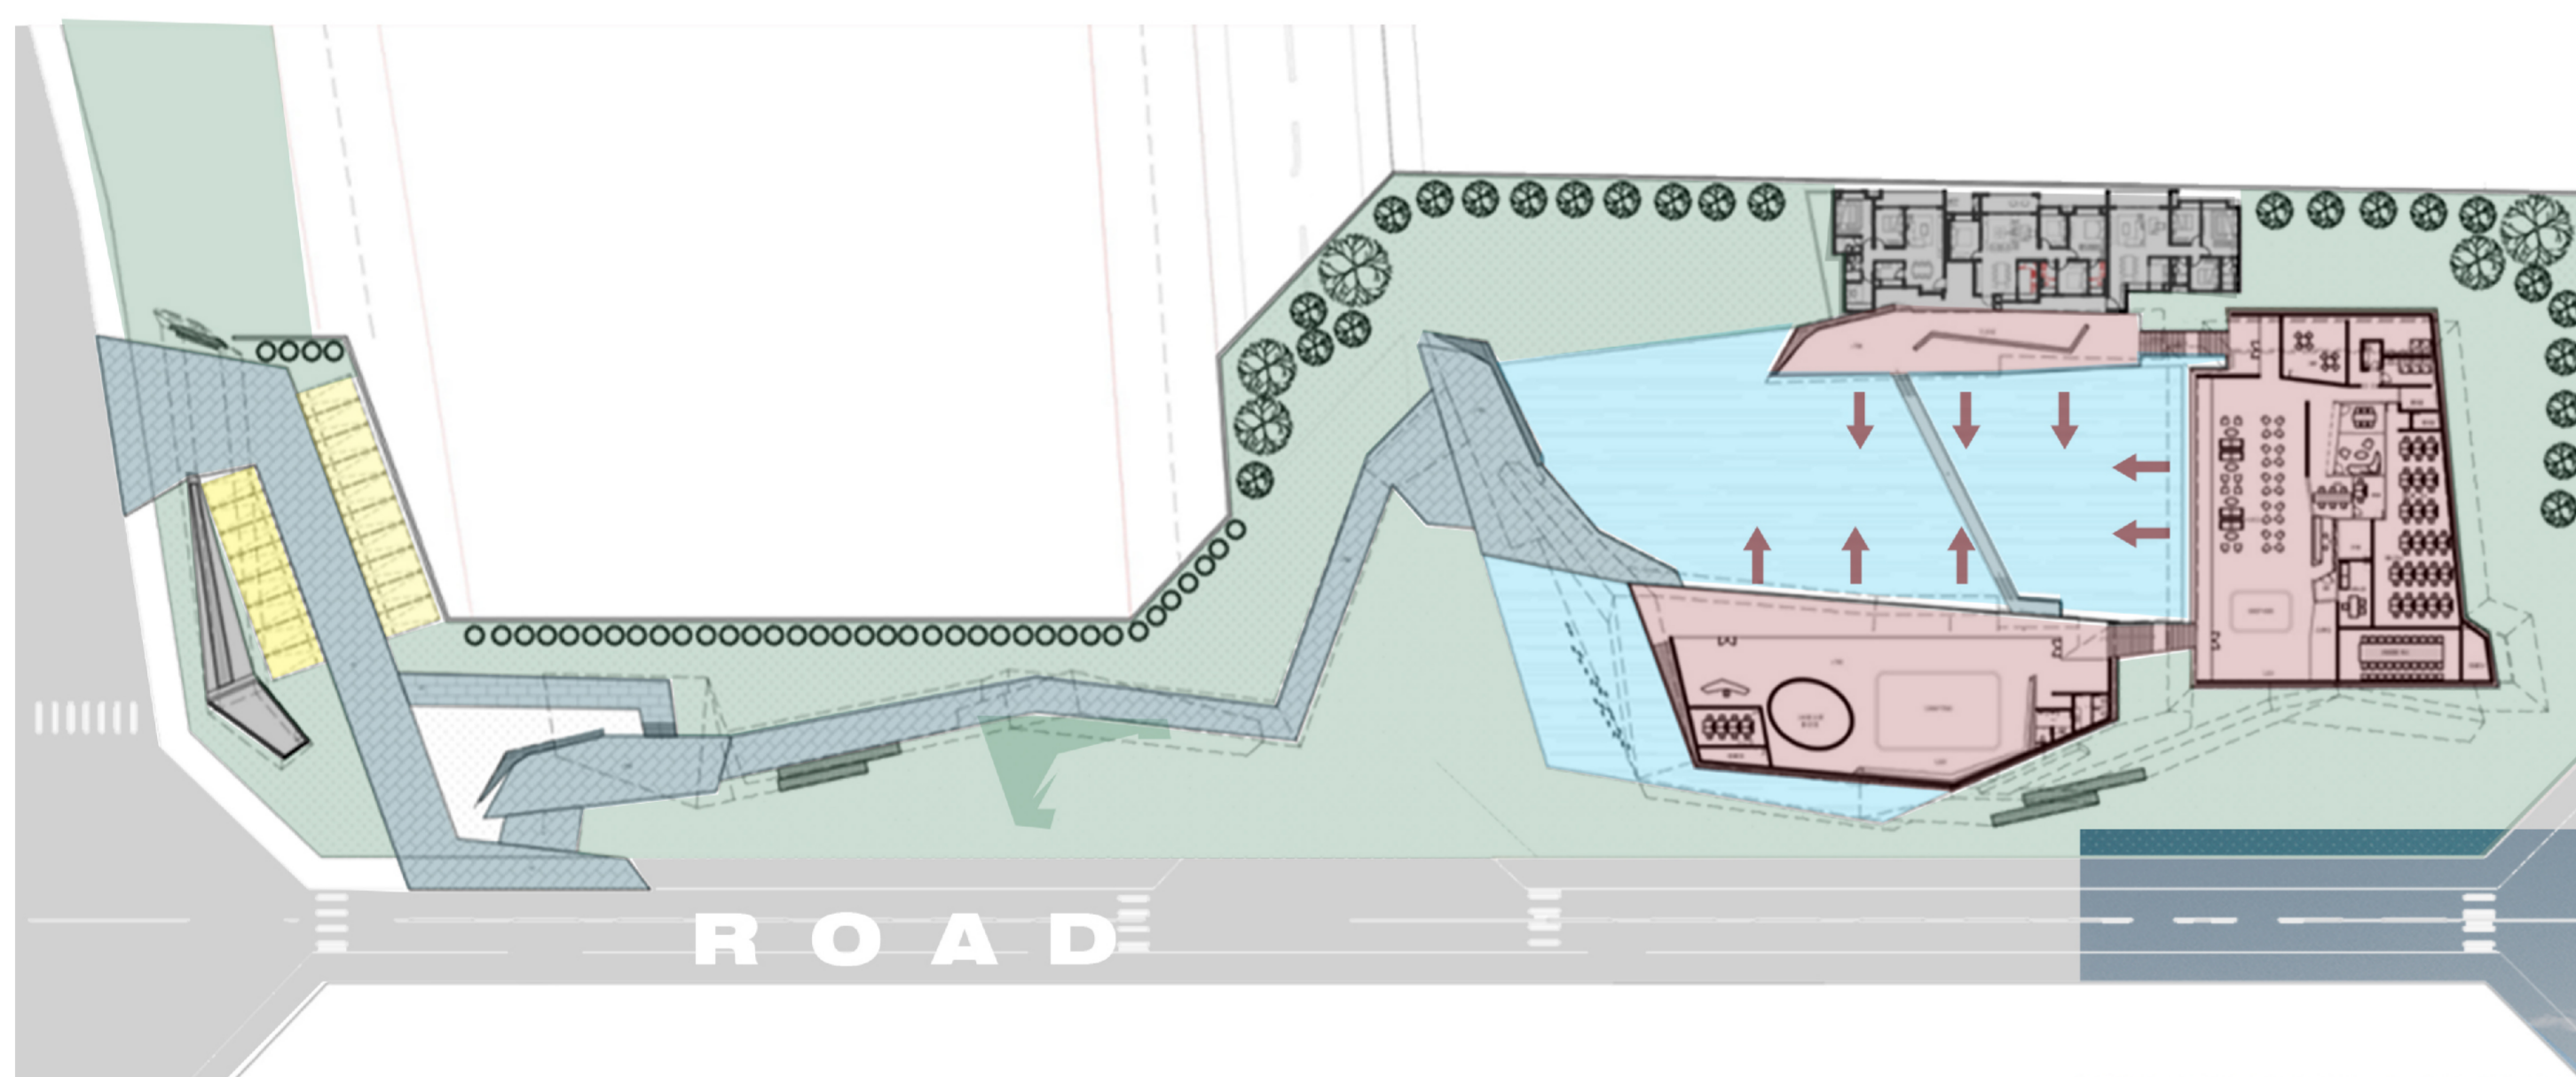

The project is located at Jiangyin city, the center of the Yangtze River Delta urban economic planning zone. The Yangtze River Delta is the largest economic development planning zone in East China. The Yangtze River is China's largest river, and it has nurtured the advanced Yangtze River Economic Belt. Jiangyin is located on the edge of the Yangtze River.

01 FLYING OVER THE WATER

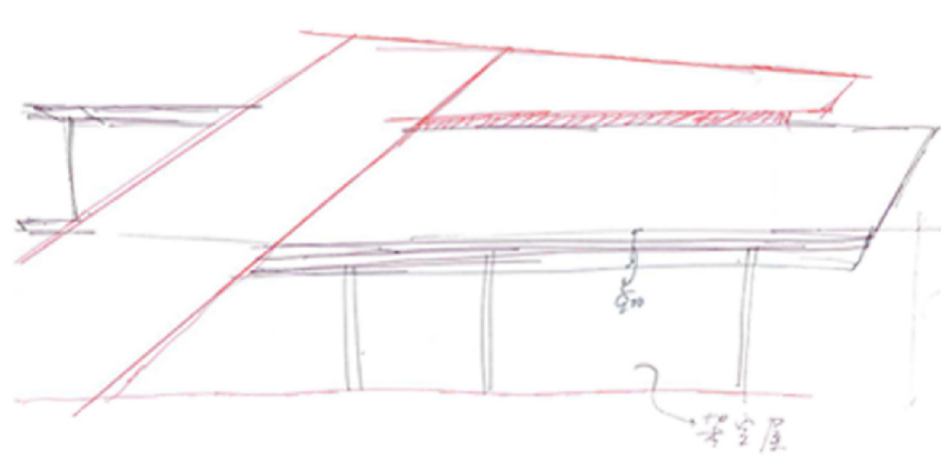

SHAPE

Designers use the advantages of geographical location to create an urban art experience center, which symbolizes the expectation for the city's future development. It is hoped that it will represent the development and take-off of the city in the Yangtze River basin, and lead the Jiangyin citizens to witness the leap of the city. Therefore, it is named as the "Flying".

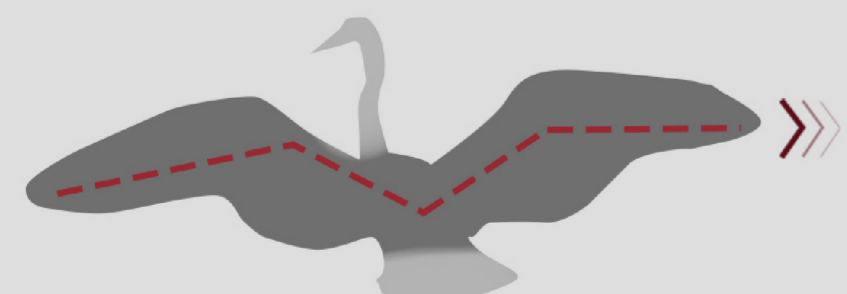

DESIGN CONCEPT 02

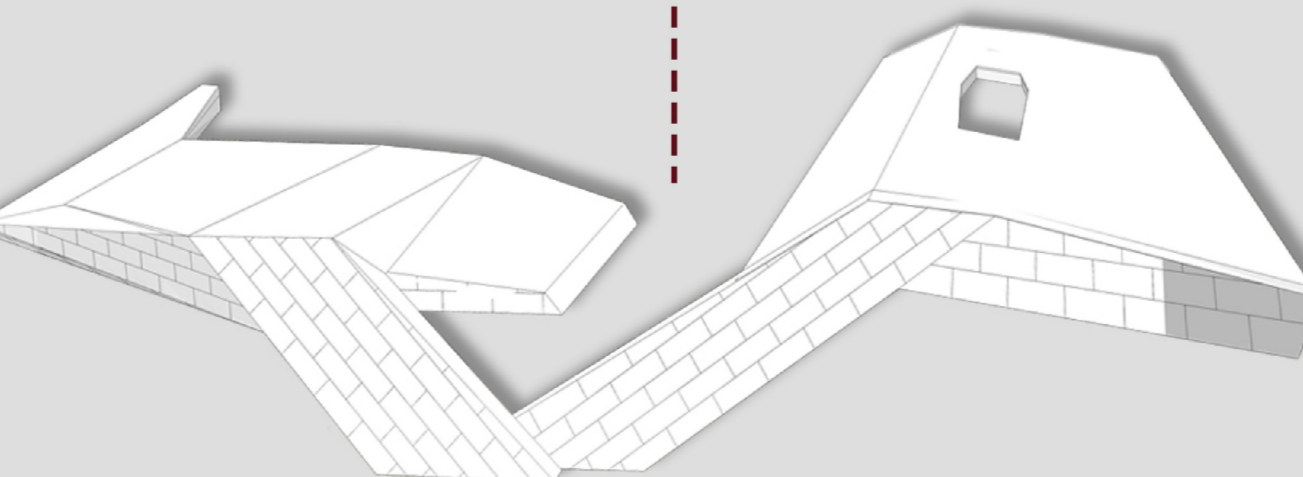

The project is located at Jiangyin city, the center of the Yangtze River Delta urban economic planning zone.

- City Experience Center
- Pavement
- Pool
- Lawn
