設計理念 | Introduction

以「島嶼渡假精神」為核心，從傳統住宿機能，提升為具備完整體驗的會館空間，包含全綠島少見的室內健身空間、陽光浴露臺、舒適房型等。材料策略上，選擇具耐候性與時間質感的自然材料，使空間在高鹽、高濕的環境中仍能維持穩定性。

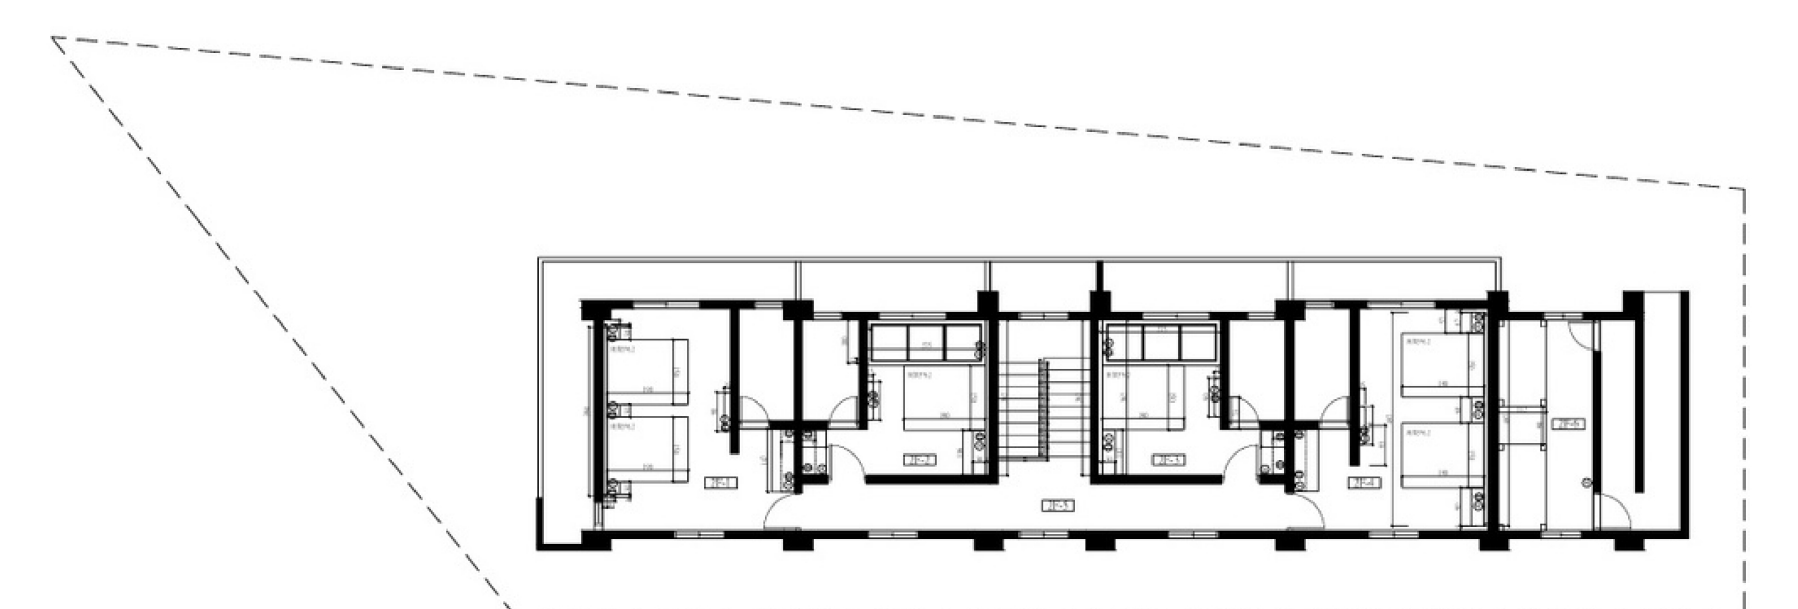

With the "island resort spirit" at its core, the resort has been upgraded from traditional accommodation to a comprehensive experience, including an indoor fitness space rarely seen on Green Island, a sunbathing terrace, and comfortable rooms. In terms of materials, natural materials with weather resistance and a sense of time are selected to ensure the space remains stable even in a high-salt, high-humidity environment.

透過「曲面與圓形木作整合結構體」，將原本的結構樑體，轉化為具有流動性的包覆造型，並在左右兩側清玻璃的配置，大幅提升室內自然光照率

By integrating curved and circular woodwork into a structural system, the original structural beams are transformed into a flowing, cladding form. The addition of clear glass on both sides significantly increases the indoor natural light penetration.
